

Donations' Policy

The Vladimir Potanin Foundation is funded from Vladimir Potanin's personal assets drawn from his investment activities' income, as well as from foreign endowments founded by the entrepreneur in order to make philanthropy systemic.

We do not raise funds from other sources, as we are a private foundation. We also do not take part in fundraising activities to support the Foundation's grantees and the Foundation's functioning.

We hope that those who are interested in our activities will be able to support directly our grantees and other NGOs working in education, culture and philanthropy.
